Hobbies

- Tech exploration

About

I'm a tech enthusiasts who always experiment with new technologies. I love building websites that are informative and beneficial to a client. I am overall excited by working and creating something on a computer which is beneficial.

Skills

1. **Web design and development**
   a) HTML 5 – I've learnt and built websites with basic markup language.
   b) CSS3 – I'm comfortable with the style sheet and its respective preprocessors like Sass.
   c) JavaScript ES6 and later – I've built web interactive apps with the scripting as well as programming language.
   d) Git and GitHub – I am comfortable with hosting and tracking records of projects with git and I'm familiar with GitHub UI.
2. **Computer Packages**
   a) Text document – I'm familiar with both Microsoft office word and Open source LibreOffice writer.
   b) Spreadsheet – I've worked with both Microsoft excel and LibreOffice calc for data manipulation.
3. **Photography** – Taking great photos and professionally editing them using tools such as Adobe lightroom is my passion.

Education

I am a self taught individual who strives to deliver the desired final product.

Package/skill	Instructor/institution
Git	UDEMY - CodewithMosh
JavaScript: advanced :intermediate :basic	UDEMY UDEMY UDEMY
Markup: CSS : HTML 5	Freecodecamp YouTube – EJ Media
